

CAC SPLICER

MOD 501-P PAPER ONLY 501-M MYLAR ONLY 501-PM BOTH PAPER AND MYLAR
MOD 501-AF FOR 6 CHANNEL ADVANCED FEED — MOD 501-LV: OLIVETTI TAPE SPLICER

Designed for paper "Model P," mylar "Model M," perforated tapes. "Model MP" allows for the intermixing of these tapes.

Various types of splicing tape available. See splicing tape sheet.

Any level punched tape, chad or chadless, quickly, safely, and permanently spliced without loss of code.

Uses a prepunched 1.5 mil thermoplastic coated mylar tape for the splice.

No special training required--used by any number of office personnel.
